About Us

“

Mokaleng Engineering Projects – Led by professionals with a wealth of knowledge and experience in the metallurgical, welding fabrication industries.

”

Mokaleng Engineering Projects is a 100% black owned Engineering Consulting and Construction entity; that has been in operation since the year 2015. Our Engineering service offering, and value addition is in the metallurgical, welding, quality, and risk-based inspection services sectors.

We are also involved in welding fabrication, maintenance of piping, structural members and pressure equipment's in the Petrochemical, Power generation and Utilities sectors.

Our purpose is to be a key partner in the development and support of local industries, to enhance our interest in being a global player in targeted industries.

Our Vision

Mokaleng Engineering Projects offers innovative and world class engineering projects support services. Housing an eclectic mix of engineering skills and leveraging on the diverse and multidisciplinary resources available locally and internationally.

Our Mission

Our mission is to create a leading engineering services and construction platform that will challenge the current status quo. Through innovative technologies, we aim to deliver engineering and construction projects with improved timelines, costs, efficiency, and sustainable rate of return to our stakeholders.

We strive to be the preferred partner with our customers, communities, and employees.

Our Services

SPECIALIZED SERVICES
